

SafeHous

INDUSTRIAL GRADE LEAK DETECTION SYSTEMS

SafeHous Point of Leak Sensor

Smart Water Leak Detector with Rope Attachment

Model: WS-1000

Product Description

The WS-1000 is a compact, intelligent rope-style water leak sensor designed to deliver reliable protection against water damage. Built for precise detection in tight or defined areas, it combines advanced sensing technology with a seamless user experience—making it ideal for homes, apartments, and commercial properties.

The WS-1000 operates on LoRa technology, enabling ultra-long-range communication without requiring WiFi, power, or internet at the sensor location. It pairs directly with other SafeHous control devices and integrates effortlessly with the SafeHous App, Amazon Alexa, IFTTT, and Home Assistant.

Features

- Integral sounder (can be disabled in the app, to extend battery life)
- Up to 5 year battery life (uses standard alkaline, non-rechargeable batteries)
- LoRa-based, extreme long-range wireless, ¼ mile open-air
- Control-D2D device-to-device pairing, does not require internet, WiFi, power
- Alexa, IFTTT, Home Assistant integration

Specifications

- Audible Alarm: Piezo Sounder, 105dB Maximum
- Power: 2 AAA Batteries (3V DC), Included & Replaceable
- Cable Sensor: 4.2 feet (1.2 meters). (Special 10 foot lengths available)
- Operating Temperature Range: -4°F - 122°F (-20°C - 50°C)
- Operating Humidity Range: ≤95%RH non-condensing
- Intended for Indoor Use Only (Protect From Elements if Used Outdoors)

What's Included

- Point of Leak Sensor
- Mounting Hook w/3M Brand Mounting Tape
- Cable Sensor: 4.2 feet (1.2 meters). (Special 10 foot lengths available)
- AAA Batteries (2)
- Quick Start User Guide
